

On the issue of making stations record their broadcasts from 6am to 6pm and storing them for 90 days is not an idea that I endorse. It seems the FCC is trying to run small radio stations out of business. Does the FCC do studies on the financial impact that their new rulings have on the privately owned and smaller stations? Does the phrase "UNFUNDED MANDATE" ring a bell? How about Freedom of Speech? Is the government trying to control what we say and how we say it? Will radio stations have to take the FCC to court and get these new rules ruled unconstitutional and waste more tax payer money in the process? Please make sure you look at the impact of your new rules before you make them the law of the land. Thank you.  
Al Little, WTUZ radio
